

TOURIST TROPHY®

Vintage Luggage Rack

Installation Instructions

1990-2005 Miata & 2006-2015 Miata

PART #901-601 & PART #901-610

Images may vary for actual product.

- 1) Thoroughly clean the trunk lid. Debris trapped under the feet of the luggage rack will leave scratches in the paint.
- 2) Install the rubber feet on the luggage rack. Figure 2.

Figure 2

- 3) Set the luggage rack on the trunk lid. Figure 3.

Figure 3

- 4) For '90-'05 Miata; position the rack so that the front support bracket can be installed hooking the forward edge of the trunk lid. You may need to open the trunk lid slightly to get the bracket in the body gap. Start the Phillip's screw to secure the bracket to the rack but only finger tight.

'06-'15 Miata do not utilize a forward middle bracket. Figure 4.

Figure 4A

Figure 4B

Installation Instructions

- 5) Install the four feet brackets finger tight. The trunk lid may need to be lifted slightly to get the brackets in the body gaps. Figure 5.

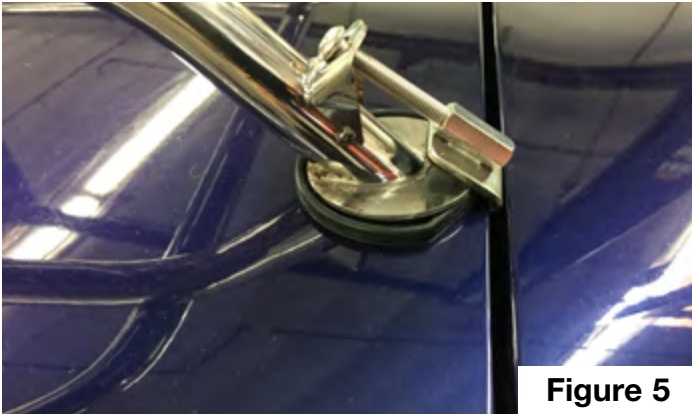

Figure 5

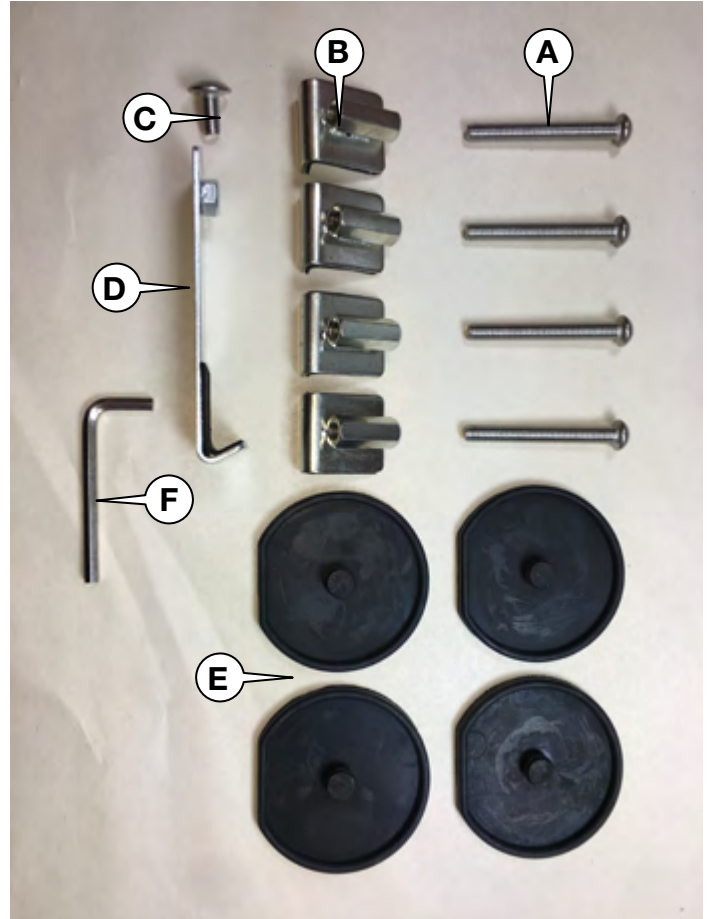

- 6) With all the brackets on but only finger tight; adjust the rack on the trunk lid. Once happy with the fitment, slowly tighten each bracket incrementally (do not fully tighten each in a row) using the provided 4mm Allen wrench. Caution: you can damage the paint or trunk lid itself by over tightening. It does not take much torque to securely hold the rack to the trunk lid.

Figure 6

- 7) Keep the Allen wrench in your car so that you can periodically check the fasteners. Make sure to check the fasteners once a load is placed on the rack. You may find you need to snug them up a bit.

Bill of Materials		
Ref	Part	Qty
A	Allen screw	4
B	Bracket, feet	4
C	Phillips screw	1
D	Bracket, front	1
E	Rubber feet	4
F	Allen wrench	1
G	Luggage Rack (Not Pictured)	1
